All due dates and times are ARIZONA time zone.

COURSE DESCRIPTION:
This course examines the history of independent filmmaking, with a specific focus on the American independent filmmaking traditions and how those traditions are influenced by and in turn influence other filmmaking practices (including Hollywood studio filmmaking, foreign films, avant-garde films, etc.)

This is an ONLINE course, with material divided between online lectures, required readings, and both required and suggested viewings. Students will be evaluated through quizzes, participation and contribution to online discussions, and written assignments designed to meet and reflect course objectives.

COURSE OBJECTIVES:
- Analyze independent filmmaking aesthetics in relation to conventional film aesthetics
- Evaluate independent film as a professional practice in relation to the mainstream American film industry
- Compare both the personal and political elements of independent film in relation to contemporary cultural studies and practices
- Apply advanced academic research to analyze independent filmmaking practices, theory, and independent film criticism
LEARNING OUTCOMES:
Upon successfully completing this course, the student will:

- Demonstrate a comprehensive understanding of the individuals, institutions, and innovative practices that significantly impacted the history of independent film
- Understand current industrial practice where independently made films intersect with popular film/media productions in a variety of media marketplaces
- Demonstrate an appreciation for the ways in which independent film represents the distinct and unique perspective of both individuals and groups that are not typically expressed or represented in contemporary culture

TECHNICAL MINIMUMS

Since this course is delivered entirely via the Internet, the student is responsible for making sure the computer he or she uses to access course materials meets or exceeds the specified computer requirements as listed on the course website. Also, due to the media content of this course, you will be required to set up and configure a media player that will consistently play the digital audio or video files delivered via the course website.

PLEASE NOTE

The student is encouraged either not to enroll, or to drop this course immediately, if he or she does not have at least some computer experience, or if he or she is unwilling or unprepared to assume the added responsibility of an online course. Required skills include downloading files, surfing the net, conferring via email, and a general intermediate computer skill-set.

In addition, this course shall require considerable attention to deadline and prompt session-by-session attention as exams and assignments shall only remain open for a brief period and will not be re-opened on an individual basis. If you are unable to devote the time and attention required by the course on a regular basis, please do not remain enrolled, as this is not a course that can be "crammed" at the end of the term. REQUIRED COURSE MATERIAL:

Video Lectures

The primary “text” of this course are the video lectures that are delivered by Professor Scott and produced by Herberger Online. These lectures vary in length up to about 40 minutes; be sure that you schedule your time appropriately.

Films

A small handful of films will be required; but there are many times when you will be asked to find an independent film on your own, or to choose from a list. Most of these films will be readily available via a commercial streaming service like Netflix or on-demand for a marginal fee (from Amazon, iTunes, etc.).

We also recommend the resource Kanopy, which is free with your ASU tuition.

http://asu.kanopystreaming.com/
Readings
The course website will have a “Readings” section that will contain links to articles and other materials that are entirely accessible online. Some material will require you to log in with your ASU ID and password so that you may access the e-books available through the ASU library.

TESTING PROCEDURES

Should you experience problems logging on to a test, email Herberger Online tech help IMMEDIATELY so there is a record of your problem. Also, fill out a computer help problem report. A link to the form is located on the course materials page of the class website. Tests will not be accepted in printed form or via email or attachment. Tests are NOT to be taken as a group effort. If such activity is observed, either physically or through computer records, all students involved will be called to account. Sanctions will be in accordance with the student code of conduct and the rules against academic dishonesty enforced by the university.

NO early or late exams will be given. The multiple-choice exams have a time limit of 40 minutes in which you must complete each test. You will lose 1 point as a penalty for every 2 minutes you go over the 40 minutes allowed so time yourself! Only begin the exam when you are ready to complete it entirely. You may not open it up, then go back to it later, or your score may not post. Also, DO NOT have multiple windows or tabs open while taking an Exam or you may lose your work! Exam window/tab only! Upon completion, your scores will be posted in the course grade checker that can be accessed via your course account. To find out what your course account is go to http://herbergeronline.asu.edu/accounts.

It is recommended that you take a screenshot of your successful completion or exams and assignment submissions. This could protect you if there is a technical issue and we don’t have a record of your submission.

STRATEGIES FOR SUCCESS

I strongly suggest making a schedule for yourself week-by-week, so you can set aside time to watch lectures, do readings/research, watch appropriate films, and complete assignments and quizzes on time. Whether it is 60 minutes a day, or two or three days where you can devote a couple of hours, try to pace yourself and not fall behind. What follows is a suggested “order” to approach all of the course material on a unit-by-unit basis.

Another tip is to watch movies and lectures uninterrupted and without distraction. Shut off your phones and close the other tabs on your web browser; consider taking notes that recall key points from lecture.
