Course Description

A city is like a world that we inherit from the many generations that came before us. We must act with great attention and enormous respect to what has come from history. What is the future of human inhabiting? The Image of Rome, a cross-disciplinary joint venture among ASU The Design School and ASU the School of Film, Dance and Theatre, is a comparative cultural study examination of the city of Rome and its intercultural understanding through consistent analysis of its specific past events and persons who built it, and of its change over time. It is devoted primarily to explain history of architecture of Rome from VIII century BC to 1960, from the point of view of the image of the city, both the built and the visual/oral one, produced by specific political powers for 27 centuries, while considering questions of human existence and meaning, aesthetic experience, art and design. The series of lessons explain in a cross-disciplinary way the roman environmental and historical development as a sequence of events influenced by a variety of factors through a systematic examination of political

institutions as they change over time and their relationship among ideas, and artifacts built from the Ancient Rome of Emperors (VIII Bc - V Ad), to the Old Rome of Popes (V Ad - XIX Ad) and to the New Rome of the King (XIX-XX).

Enrollment Requirements

No prerequisites, Open to all students.

Course Overview

The Course Format comprises a module with a double format of the lesson and Movie Clip analysis.

- A formal lesson on historical, sociological, cultural, architectonic and artistic aspects in Space and Time of Rome is combined with clips named "postcards" (Promenades Dans Rome) portraying alive scenarios and soundscapes of contemporary Rome, to give the historic still image of the city, an alive image, a contemporary vision that echoes old images produced over time.
- Movie clip analysis by Doctor Jason Scott will guide students through "iconic" films that used Rome as a setting, in order to reflect the image of Rome those movies built in the US: "La Dolce Vita," "Bicycle Thieves," "Rome Open City", "Three Coins in the Fountain," "Roman Holiday," and others.

Student Learning Outcomes

Students will appreciate history as an improvement for society and the environment while acquire valuable experience in cross-disciplinary process that concerns the interpretation and analysis of a various range of formats (written, aural or visual): ancient texts of latin poets, old and modern texts, sculptures, landscape tradition and romantic paintings of Rome, maps, architecture, movies and contemporary clips of Rome. The course contributes to the development of the critical thinking by reinforcing critical skills in reading, writing, listening.

Historic Awareness: Students will develop historical awareness and intercultural understanding as a valuable aid in the analysis of present-day problems because historical past has created modern life. Observing the example of the integrated city of Rome as an integrated city, students will understand the value of precedent as a sustainable principle in the creation of the contemporary world. Students will be able to name main architectural periods of Rome in relation to 3 different political powers, their culture, art, situations, and environments: the will Identify "history" as a sequence of

events. They will learn to identify the presence of history in the built environment of contemporary cities.

Humanities: The study of history through observation of past and present images, accomplishments of artists, designers, and their traditions will help form the student's ability to perceive aesthetic qualities of artwork and design of other contemporary cities. The study of history through images of the city (the physical one built by political power and then virtual one produced by travelers) is a way to produce an online "experience of the city" by showing the links existing in between the real city and its visual alter ego produced by travelers' experiences of it. Through the study of a textual (literature), historic and artistic/ architectonic culture (aesthetics) of a diverse culture and traditions as the one of the Roman world, students will recognize the city as a world that we inherit from the many generations the have preceded us and therefore, as collective artwork. After the exposition to perspectives on art, students will recognize (1) aesthetic experience and creative process in arts and design, (2) identify aesthetic systems and values in visuals and built environment, and (3) understand the values and elements of roman culture in relationship to America's cultural system: they will recognize how contemporary media (virtual images) influence the experience of built space (physical image) of a place.

Global Awareness: Students will learn how human organizations have evolved from the village to modern global interdependence. The comparative cultural study examination can show the cultural significance of the roman global issue and its effects on other cultures.

Grading Definition (TDS Standard)

“A” Exceeds Expectations Not only fulfills the objectives of the course syllabi and assignment statements but extends them through new insights beyond the stated scope. These students demonstrate a high degree of professional dedication, rigor, open mindedness and resourcefulness. They have developed an ability to build upon feedback from a variety of sources, and to excel with an emerging independent “voice”. Their work is rigorously thought through, well crafted, and clearly communicates.

“B” Fulfills Expectations Meets the stated objectives of the course syllabi and assignment statements, while also elaborating on the stated issues through independent investigations that lead to developments in the work. These students demonstrate a medium degree of professional dedication, inquisitiveness, rigor and resourcefulness. They are developing an ability to build upon feedback from a variety of sources and are beginning to develop an independent “voice”. Their work is competently thought through, well crafted, and clearly communicates.

“C” Under-Achieves Expectations Minimally meets the basic requirements of the course syllabi and assignment statements, without meeting the larger qualitative objectives. These students demonstrate a low degree of professional dedication and require constant guidance. While demonstrating an understanding of the problem there are deficiencies in communication skills, time management, and in the breadth and depth of the student’s investigations. There is little evidence of an ability to develop an independent direction to the work. Although reasonably well crafted the work does not communicate effectively.

“D” Does Not Meet Most Expectations Deficient work does not demonstrate many of the basic requirements and objectives of the course syllabi and assignment statements, These students show one or more of the following: lack of professional dedication, lack of self-confidence, a closed-minded attitude, lack of time management skills, lack of communication skills, and/or distracting external personal problems. The work is often fragmentary, lacks synthesis, incomplete, and/or simply fulfilling an assignment. Deficient work is not acceptable and will result in the student having to retake the course.

A Exceeds expectations, A+ Well, A- Just

B Fulfills expectations, B+ Well, B- Just

C Under-achieves expectations, C+ Just, C- Significantly

D Does not meet most expectations

E/F Fails all expectations

I Incomplete - An incomplete gives you an extension of time to complete the required course work, it may be given with a medical excuse or family hardship.

Student Conduct Expectations

Students must abide by all the requirements stated in this syllabus. In addition, all students should be aware of their rights and responsibilities at Arizona State University. Please reference the college catalog and student handbook for student rights and responsibilities.

These can be found here:

<https://arizonastateu.sharepoint.com/sites/HIDAstudent/StudentSuccess/Pages/Student-Handbook.aspx>

Academic Integrity and Plagiarism

Students are expected to adhere to the [ASU Student Code of Conduct](#).

Besides academic performance, students should exhibit the qualities of honesty and integrity. Every student is expected to produce his/her original, independent work. Any student whose work indicates a violation of the ASU Academic Misconduct Policy including cheating, plagiarism, and dishonesty will be subject to disciplinary action.

Plagiarism is defined as deliberately passing off someone else's words or ideas as your own. All necessary and appropriate sanctions will be issued to all parties involved with plagiarizing all coursework. Plagiarism and any other form of academic dishonesty that is in violation of the Student Code of Conduct will not be tolerated.

Arizona State University and the Herberger Institute for Design and the Arts expect the highest standards of academic integrity from all students. Failure to meet these standards may result in suspension or expulsion from the university or other sanctions as specified in the University Student Academic Integrity Policy. For more information, please see the ASU Student Academic Integrity Policy: <http://provost.asu.edu/academicintegrity>.

Per ASU policy, a student may not avoid the consequences of academic dishonesty by withdrawing from a course and may be placed back in the course in order to face sanctions resulting from academic integrity violations. You are responsible for abiding by this policy.

In addition, ASU adheres to a university-wide Student Code of Conduct. The philosophy behind this policy states: The aim of education is the intellectual, personal, social, and ethical development of the individual. The educational process is ideally conducted in an environment that encourages reasoned discourse, intellectual honesty, openness to constructive change and respect for the rights of all individuals. Self-discipline and a respect for the rights of others in the university community are necessary for the fulfillment of such goals. The Student Code of Conduct is designed to promote this environment at each of the state universities.

The ASU student [academic integrity policy](#) lists violations in detail. These violations fall into five broad areas that include but are not limited to:

1. Cheating on an academic evaluation or assignment.
2. Plagiarizing.
3. Academic deceit, such as fabricating data or information.
4. Aiding academic integrity policy violations and inappropriately collaborating.
5. Falsifying academic records.

Student Conduct

You are expected to treat your instructor and your fellow classmates with respect and kindness. In all correspondence and in Discussion Board postings, you should show respect for the viewpoints of others who may disagree with you or see things from a different perspective. Criticizing, ridiculing, insulting, or belittling others will not be accepted. Keep in mind that electronic communications do not have the advantage of nonverbal cues that are so much a part of interpersonal communication. Humor or satire can sometimes be misinterpreted in strictly electronic communication forums.

Online Activity Logs

All course activity is logged by the Herberger Online servers, and those logs are regularly reviewed by Herberger Online during normal business. These logs contain all requests you make while visiting the site: every image, video, web page, etc. Each request is logged with the time, down to the second, when it was made. If you contact your instructor, or Herberger Online, about a technical issue, these logs will be reviewed as part of that process.
